Stay in the HOME you love!

An independent family business since 1867

Stannah
The Stairlift People

Stannah – a name you can *trust*

Stannah is a family-owned business with over 140 years of experience in the lifting industry. We are proud to make some of the world's best-selling stairlifts, with over 500,000 sold globally. We welcome the opportunity to share that experience with you, either in person or through our network of the best stairlift dealers in North America. A stairlift is an important purchase, so it makes sense to choose Stannah – a name you can trust.

Better by design

A good product depends partly on using quality materials, but far more on the skill of designers and engineers. Stannah has a worldwide reputation for thoughtful design; our stairlifts are styled to fit into your home, are easy to use, reliable, and have appropriate safety features included as standard.

Examples of our thoughtful design include the way our stairlifts can be folded without bending down (especially important at the top of the stairs), the seat belt placement on the end of an armrest (much easier to reach than a seat belt by the hips) and the shape of the track which is narrow, and enclosed so that anything dropped on it falls harmlessly aside.

All of our stairlifts use a reliable battery system with a smart trickle-charger that plugs into a standard power outlet. Not only does this use very little electricity, it is also quiet and makes for a smooth ride that will allow you to use your stairlift in the event of a power outage.

Safety

We believe that safety is the most important factor when making a stairlift. That's why we include more standard safety features than any other stairlift manufacturer and insist on high standards of work when we are training installers. In addition, every stairlift we design is tested for the equivalent of ten years of use and the motor is tested for 100,000 journeys (which is about 20 years of normal residential use) to ensure that it is reliable enough to meet your needs.

However, engineering is only part of the story when it comes to safety. Just as important are the needs of the user and the staircase in question. That's why it is so important to have an expert come and review your situation before buying a stairlift.

Room to Maneuver

The 600 model will fit your straight stairs perfectly, leaving plenty of room when the lift isn't in use.

Shown above: Siena chair, Tan upholstery.

Enjoy the Great Outdoors!

The Stannah 320 outdoor model is designed to withstand harsh weather, salty spray and small animals.

Stairs That Turn?

At Stannah, we'll custom design our Model 260 to fit your stairs. The rail can also be set to finish in the most convenient position.

Shown above: Starla chair, Stone upholstery.

Siena

For Straight Stairs

Stannah

The Stairlift People

Compact and easy to use, the Model 600 with Siena chair is a versatile stairlift for straight stairs - well-equipped as standard, with a range of options if needed. Sturdily built to carry up to 350lbs, the Siena can be folded up easily without bending over, which is especially helpful at the top of the stairs.

The slim-line rail sits close to the wall and was designed for narrow stairs with a door at the top, making the Siena ideal for basement stairs. With constantly recharging batteries to ensure that your stairlift is always ready for use, a wide seat and footrest, and optional retractable rail (if the rail protrudes at the bottom of the stairs), the 600 Siena is a class-leading choice from Stannah.

With its narrow rail and slim design, this stairlift takes up little room. A remote at each landing allows the chair to be called or sent away.

Simply lower the seat to unfold the Siena chair - the footrest comes down at the same time, so there's no need to bend over.

A gentle hand on the control sends the Siena smoothly up or down the stairs.

The seat swivels to face the top landing, blocking the stairs behind you, for added safety.

Siena 600 Key Features

Upholstery
Comfortable, waterproof upholstery, available in six colors.

Chair width options
Standard model is 19½" between the armrests. Slim model is 16" between the armrests.

Easy-to-use controls
The slimline control allows you to use any part of your hand to operate the stairlift.

Swivel levers
Use the levers, or optional one or two-way powered swivel, to get on and off your stairlift in the safest position at the top or bottom of your stairs.

Adjustable seat height
Set during installation so that your stairlift is comfortable and tailored to fit your needs.

Key Lock
The key lock prevents unauthorized use.

Model shown:
Siena chair with Tan upholstery

On/Off switch
Conveniently placed On/Off switch prevents the chair from moving unexpectedly.

Seat belt
Mounted on the armrest within easy reach. Fastens and unfastens with one hand.

Easy folding
The armrests, seat and footrest fold neatly when not in use. The footrest folds up automatically as the seat is raised, eliminating the need to bend over.

Safety sensors
Stop the stairlift if it meets an obstruction.

Armrest safety
The down-side armrest must be lowered when riding the chair.

Rated load
One person, 350lbs

Siena

For Stairs That Turn

Stannah

The Stairlift People

Compact and easy to use, the Siena chair from Stannah travels along a rail that is custom-made for your stairs. With over forty years of experience making stairlifts like this, we know how to make the best use of the space available - helping to blend your stairlift discretely into your life.

Whether you're accessing a basement or making full use of the rooms upstairs, the Siena gives you the freedom to set your own schedule. You can use it to carry the groceries and laundry - and park it neatly out of the way when not in use. Choose from a range of colors, and, if needed, sensible options are available to make this the perfect stairlift for your needs.

Custom-made to fit almost any staircase, the Stannah 260 saves you the trouble and cost of moving to an unfamiliar home.

This versatile design allows your stairlifts to be placed on either side of the stairs, making the best use of a narrow staircase.

Unfold the Siena without bending over, for added safety at both landings.

Swivel to face the top landing, or (if space allows) your stairlift can continue on to the top landing.

Siena 260 Key Features

Upholstery
Comfortable, waterproof upholstery, available in six colors.

Chair width options
Standard model is 19½" between the armrests. Slim model is 16" between the armrests.

Easy-to-use controls
The slimline control allows you to use any part of your hand to operate the stairlift.

Swivel levers
Use the levers, or optional one or two-way powered swivel, to get on and off your stairlift in the safest position at the top or bottom of your stairs.

Key Lock
The key lock prevents unauthorized use.

Custom-made
This chair travels along a rail which we custom-make to hug your stairs.

Model shown: Siena chair with Tan upholstery

On/Off switch
Conveniently placed On/Off switch prevents the chair from moving unexpectedly.

Seat belt
Mounted on the arm-rest within easy reach. Unfastens with a simple latch.

Easy folding
The armrests, seat and footrest fold neatly when not in use. The folding mechanism eliminates the need to bend over.

Safety sensors
These stop the stairlift if it meets an obstruction.

Armrest safety
The down-side armrest must be lowered when riding the chair.

Starla

For Straight Stairs

Stannah

The Stairlift People

The Model 600 with Starla chair is our premium stairlift for straight stairs. With a high, rounded back and gently tilted seat, the Starla is the most comfortable stairlift we've ever made. A button on the armrest folds the footrest up and down, making it easy to get in and out of the seat.

Choose from five upholstery colors, which are also available trimmed with light- or dark wood. The slim-line rail has a subtle bronze sheen, and sits neatly at the edge of the stairway. Quickly installed, the Starla 600 is an exceptional choice which will save you the trouble and expense of moving to a new home.

The Stannah 600 with Starla chair is designed with upholstery choices to blend into your home, and runs along a slim rail attached to your stairs.

Easily folded without bending over, the Starla chair leaves room for walking past. Use remotes on either landing to call or send your stairlift.

With sensible safety features, this stairlift is a practical way to enhance your peace-of-mind.

When swiveled to face the top landing, the Starla chair forms a barrier across the top of the stairs.

Starla 600 Key Features

Comfortable and safe
The generously padded seat has a high back for comfort, and the seat tilts back slightly for added security.

Plain or wood-trimmed upholstery
Choose fabric or vinyl upholstery, and add dark or light wood trim.

Easy-to-use controls
The slimline control allows you to use any part of your hand to operate the stairlift.

Seat belt
A retractable, seat belt fastens and unfastens with one hand, and is mounted on the armrest, within easy reach.

Seat sensor
Stops the stairlift from moving until you are securely seated.

Safety sensors
Stop the stairlift if it meets an obstruction.

Rated load
One person, 300lbs

Model shown:
Starla chair with Beige vinyl upholstery.

Powered footrest
Folds the footrest up or down. This makes it easier to get in and out of the chair, and avoids the need to bend when folding the footrest.

Arm isolation
Prevents the control on the chair from working until the downside-armrest is lowered.

On/Off switch
A pulsing blue light indicates that the switch is off.

Swivel levers
Use the levers, or optional one or two-way powered swivel, to get off your stairlift in the safest position at the top or bottom of your stairs.

Easy folding
Armrest, seat and footrest fold neatly away.

Key Lock
A key lock prevents unauthorized use.

Starla

For Stairs That Turn

Stannah

The Stairlift People

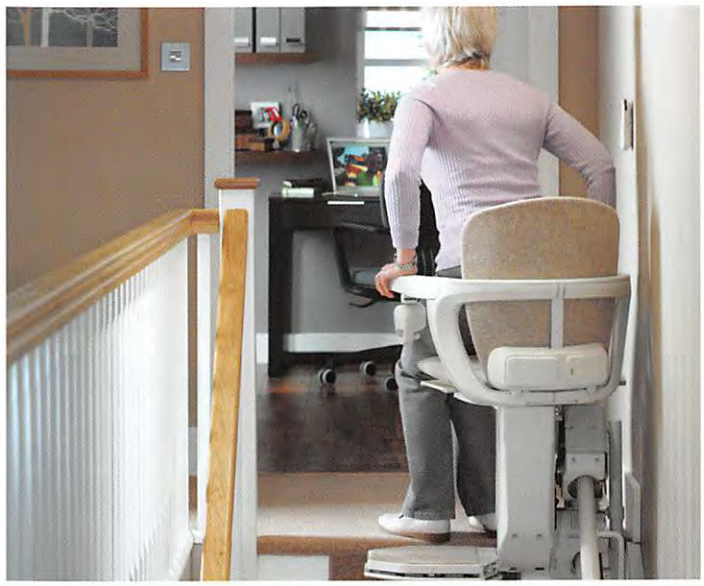
The Model 260 with Starla chair is our premium stairlift for stairs that turn. With a high, rounded back and gently tilted seat, the Starla is the most comfortable stairlift we've ever made. A button on the armrest folds the footrest up and down, making it easy to get in and out of the seat.

Choose from five upholstery colors, which are also available trimmed with light- or dark wood. We'll design your stairlift to make the best use of the space available, and custom-make the rail to hug the side of your stairs. Installation typically takes less than half-a-day, after which you'll be able to enjoy the full use of your home in comfort and safety.

Designed to blend into your home, the Stannah 260 with Starla chair comes in many upholstery choices and is custom-made to hug your stairs.

Tight turns and narrow stairs are no problem, and the Stannah 260 can be parked neatly out of the way.

With sensible safety features, the Starla chair is a practical way to enhance your peace-of-mind.



When swiveled to face the top landing, the Starla chair forms a barrier across the top of the stairs.

Starla 260 Key Features

Comfortable and safe
The generously padded seat has a high back for comfort, and the seat tilts back slightly for added security.

Plain or wood-trimmed upholstery
Choose fabric or vinyl upholstery, and add dark or light wood trim (see below).

Easy-to-use controls

Sadler

For Stairs That Turn

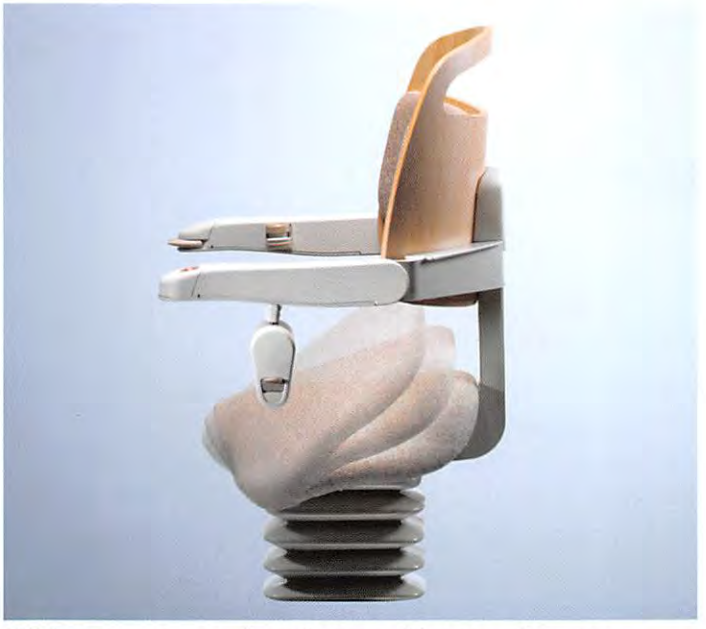
Stannah

The Stairlift People

The Stannah 260 Sadler is an innovative stairlift designed for people who find it difficult to sit down or bend their knees. Our design places the user in an upright position, without unduly stressing the knees. The saddle-style seat raises and lowers helping the user transfer in and out of the chair with ease, while the immobilizer seatbelt ensures that your ride will be safe and secure.

Easy folding leaves plenty of room for others to use the stairs. The footrest folds up when one armrest is raised.

Glide upstairs on your Sadler, safely supported by the reclining seat. Upstairs, the Sadler travels a short distance onto the landing, for safety.



Tilting seat gently raises and lowers the user, making entry and exit comfortable and easy.

Immobilizer seatbelt prevents your stairlift from moving until you are securely buckled.

Sadler 260 Key Features

Saddle style seat
This unique seat design supports you in a upright posture while taking the stress off your knees and legs.

Easy-to-use control
Simple operation with the slightest touch.

Adjustable height

User's height	Seat height
Up to 5′	22¾″
Up to 5′3″	24½″
Up to 5′ 8″	26¼″
Up to 6′	28″
Up to 6′4″	29¾″
Over 6′4″	31½″

On/Off switch

Arm isolation
Prevents operation of the arm control until the armrest nearest the bottom of the staircase is fully lowered.

Seat belt
Immobilizer seatbelt fitted as standard. Stairlift will not operate until it is securely fastened.

Safety edges
Sensors stop your Sadler if they detect any obstructions on the stairs.

Powered footrest
Operates when the downside arm is lowered or raised.

Rated load
One person, 300lbs

320

For Outdoor Stairs

Stannah

The Stairlift People

The Stannah 320 is a practical solution where you have a straight staircase and need to access your driveway, deck or yard. Quickly fastened to a few of the stair treads, the 320 is easier to install than a ramp and takes up much less room. The 320 was designed to withstand both hot and cold climates, and has a good track record in locations as diverse as New England and Hawaii.

Operating the Stannah 320 couldn't be easier. After sitting in the secure seat (which comes with a lap belt), move the joystick on the arm-rest to glide effortlessly up or down the stairs. At the top of the stairs you can turn the chair to face the landing. To access the great outdoors, it's just the lift you need!

With its narrow rail and slim design, the 320 stairlift provides a space-saving way to access your driveway, deck or yard.

To use the Stannah 320, simply unfold it, sit down and gently move the joystick on the end of the arm-rest in the direction you want to travel.

Landing controls (with key lock) let you call or send your stairlift - handy for carrying groceries.

The 320 is weatherproof, and also comes with a protective cover to keep out leaves, ice and snow.

Model 320 Key Features

Weather-resistant construction
The model 320 is made of light gray waterproof, UV-resistant materials.

Seatbelt
A lap-belt is fitted as standard.

Directional Control
Able to be mounted on either armrest, the joy-stick controls the stairlift's movement.

Manual swivel seat
Levers on either side of the stairlift unlock the swivel seat, allowing the user to turn towards the top landing. The back of the chair then acts as a barrier across the stairs, for safety.

Folding seat
The seat may be folded away when not in use.

Folding armrests
Padded, for comfort

Power-on light

On/Off switch

Key lock
If required, the keyswitch can be used to completely immobilize the stairlift.

Batteries
Two 12-Volt batteries keep the stairlift working in the event of a power outage. Recharging is continuous and automatic, to over-come cold weather.

Safety edges
Sensitive safety edges stop the stairlift immediately if it meets an obstruction.

Landing controls
Hard-wired controls (with key locks) on both land-ings allow the stairlift to be called or sent.

Rated load
One person, 300lbs.

REQUIREMENTS

- Minimum staircase width: 27″
- Maximum user weight: 300lbs
- Operating temperature range: 14°F to 105°F (-10°C to 40°C)
- Power outlet: 110V indoors, with a ½″ sleeve leading to outdoors. Total distance to stairlift should not exceed 100′
- Stair tread construction: Concrete, solid wood, steel or solid stone.

Options

Stannah
The Stairlift People

In addition to the standard Siena and premium Starla chair with their choices of upholstery, Stannah stairlifts can be supplied with options to make them even safer and easier to use.

Retractable rail for straight stairs Raises and lowers automatically as the chair rides up and down the stairs. Used where the Model 600 rail would be a tripping hazard at the bottom of the stairs.

Chair width The Siena chair comes with comfortable wide armrests (left image) as standard. An optional narrow chair (right image) allows the chair to be installed on stairs only 27″ wide.

Powered swivel Turns the chair to face away from the stairs, for ease-of-use and safety. By using the remote, the chair can be turned to block the top of the stairs before approaching to sit down.

Seatbelts The standard retractable seatbelt on the Siena and Starla chairs (left) can be upgraded to an 'Immobilizer seat belt' so that the chair will not operate from the armrest control until the seat belt is engaged. The immobiliser seat-belt is standard equipment on the Sadler chair. Our lap-diagonal and five-point seat belts (right) provide extra restraint over the shoulders and, if needed, between the legs.

Parking kit Allows any Model 260 chair to be parked a short way up the rail, conveniently out of the way.

Rails colors In addition to the standard Pearl color, the Model 260 curved rail can be finished in Nut Brown, Ochre, Beige, Black and Gray.

Additional options for the Model 260 curved-rail stairlift

- Intermediate stop - used at mid-landings (such as on a split-level staircase).
- Heavy-usage kit - approximately doubles the number of journeys providd by the batteries.
- Rubber mats & Wall ties - used where the support legs cannot be fastened to the floor.
- Reduced footrest & Offset footrest - used on narrow or steep stairs.
- Door-closing device - used where the chair may run into an open door during travel.

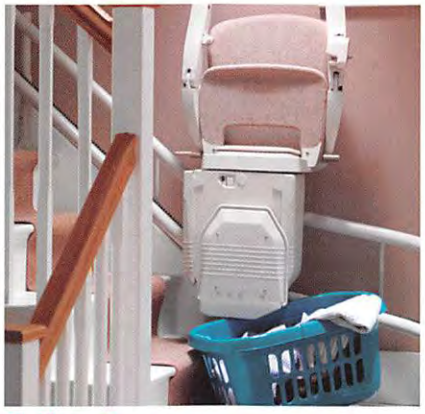
Product Features

Seat Belt
We offer four seat belt options, including a retractable, secure belt that fastens and unfastens easily with one hand.



Safety Sensors
Every Stannah stairlift is equipped with sensors that detect obstructions and bring your unit to a safe and immediate stop.

Swivel Options
Whether you choose the power option or the standard manual swivel, your lift will turn to let you off in the safest position.

Hand Control
Easy to use, the slimline hand control allows you to use any part of your hand to operate your stairlift.

Armrest Control
The conveniently placed On-Off switch is clearly marked and the power footrest button (where fitted) makes folding your chair safe and easy.

Remote Control
Each stairlift comes standard with two remote controls, allowing you to call your chair to the top or bottom landing.

Easy Folding
All of our indoor stairlifts come with footrest folding assistance, so you'll find that your lift is both safe and unobtrusive.

Upholstery Choices
We offer several upholstery colors and styles, including wood trim options for Starla chairs.

Powered Folding Rail
This option for straight stairs folds up the rail automatically, leaving plenty of walking space on the lower landing.
