

Residential Elevators

WE
Lift Expectations

Since 1957, Waupaca Elevator Company has been an industry leader in the design and manufacture of residential elevators and dumbwaiters. From our most affordable model to the most luxurious, a Waupaca residential elevator will improve your in-home mobility and dramatically enhance your quality of life.

Waupaca Elevator has earned an outstanding reputation for superior quality, safety and customer service by offering the most comprehensive range of drive mechanisms, design options, cab finishes and accessories.

Our elevators are engineered for trouble-free performance and built using the finest materials such as select or better hardwoods, hardened steel and state-of-the-art digital

controls. You will also be pleased to know that we manufacture many of our own components, which are assembled with pride at our Appleton, Wisconsin factory.

Through our national dealer network, Waupaca Elevator has become North America's preferred brand of residential elevator.

Waupaca Elevator makes owning a home elevator easy by offering comprehensive drawings for your builder or architect. We provide solutions that simplify the installation process with design flexibility for new construction or retrofitting an existing home.

Waupaca Elevator Company – We Lift Expectations!

"Waupaca Elevator and our dealer exceeded our expectations in designing and building the perfect elevator to fit with the décor of our new home. My husband and I were delighted with the entire process."

Estate elevator with hand finished oak panels, hardwood trim and solid-wood flat handrail

Why is a Waupaca elevator right for your home?

Waupaca Elevator offers models to fit every budget with a broad range of styles that blend perfectly into any home décor.

A Waupaca elevator delivers a smooth, quiet ride that improves your home accessibility and enhances your quality of life. An elevator allows you to stay in the home you love for as long as you would like.

A home elevator makes activities such as moving bulky objects from floor-to-floor safer, easier and more convenient.

A Waupaca elevator will dramatically increase your home's resale value and expand its marketability.

Waupaca elevators are installed and serviced by trained elevator specialists and are backed by more than 50 years of industry expertise.

Your investment in a Waupaca elevator is secure with a full 2-year limited parts warranty — one of the many reasons why more architects and builders specify Waupaca Elevator with confidence.

Waupaca Elevator is a family owned and operated business, dedicated to providing the performance and value you deserve in a residential elevator.

Custom 2-tone bird's eye maple and walnut cab with front and rear entry gates

The Designer

Our Designer model is popular and versatile for those wishing to create or decorate their own unique cab interior.

- Unfinished flush birch walls and ceiling
- Solid wood handrail
- Brushed stainless steel or muntz stations
- Unfinished floor
- Dual 4" recessed down lights with white trim rings
- Selection of vinyl-lam accordion gates
- Available in other wood veneers as well as a broad choice of applied laminates.

A photograph of an elevator cab interior with unfinished birch walls and ceiling. The cab is shown from a side-on perspective, highlighting the natural wood grain. A wooden handrail is visible on the side wall.

Unfinished Birch

A photograph of an elevator cab interior with a wallpaper finish. The cab is shown from a side-on perspective, with the wooden door open. The interior walls are covered in a light-colored wallpaper with a subtle pattern. A wooden handrail and a control panel are visible.

Designer with wallpaper finish completed by homeowner

"The dealer's installation crew did an outstanding job. They were very prompt, professional and courteous. We loved everything about our experience with Waupaca Elevator."

The Heritage

The Heritage offers a new look with timeless beauty.

- Textured neutral wall panels and ceiling
- Solid wood handrail
- Brushed stainless steel or muntz stations
- Unfinished floor
- Dual 4" recessed down lights with white trim rings
- A selection of vinyl-lam accordion gates
- Finished with handcrafted hickory trim

Heritage cab with textured neutral wall and ceiling panels with hickory trim

The Estate

The Estate is a distinctly crafted, hand finished model that features:

- Oak wall panels
- Hardwood trim
- Textured neutral ceiling
- Solid wood handrail
- Brushed stainless steel or muntz stations
- Standard selection of vinyl-lam accordion gates
- Unfinished floor
- Dual 4" recessed down lights with white trim rings
- The oak walls and trim may be finished natural, medium, dark, or left unfinished
- The Estate wood selections include cherry or walnut with natural finish
- Additional Estate wood options are available

Three small inset images are located at the bottom left of the page. The first image shows a two-story house with a white garage. The second image shows a man and a woman sitting on a bench. The third image shows a close-up of a document with a pencil.

"Our elevator is very quiet and smooth. It feels like riding an elevator in a high-rise building. The fit and finish are exceptional and the style matches our home décor perfectly."

The Estate Limited

The elegant, fine quality Estate Limited cab features:

- A hand finished cherry interior
- Polished brass fixtures
- Walls and ceiling are trimmed with cherry hardwood and highlighted with our own blended finish
- This model includes a matching handrail and kick plate
- Four 4" recessed down lights with brass trim rings
- An acrylic accordion gate is standard

Estate Ltd. with cherry blend finish, brass handrail and kickplate, four recessed down lights and arched valance

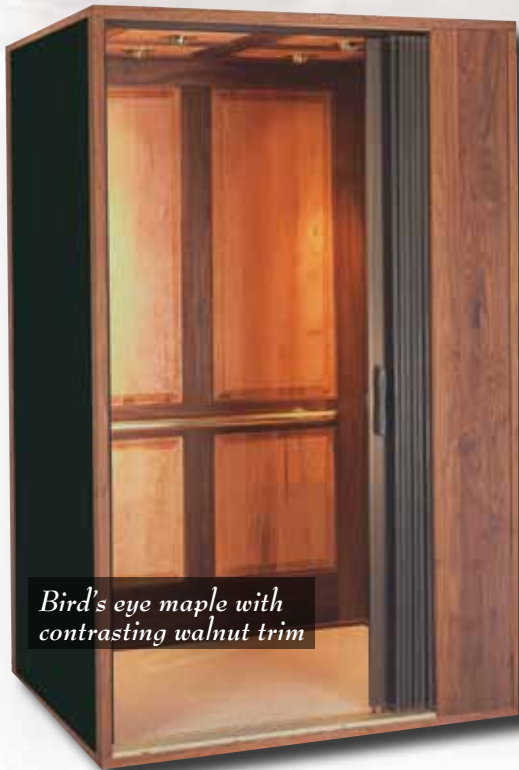

Custom Raised Panel Cabs

A vast array of hardwoods, styles, fixtures and features allow you, the homeowner, an opportunity to create a design uniquely your own. We have selected an option list of the finest materials available to provide utility, elegance, value and comfort.

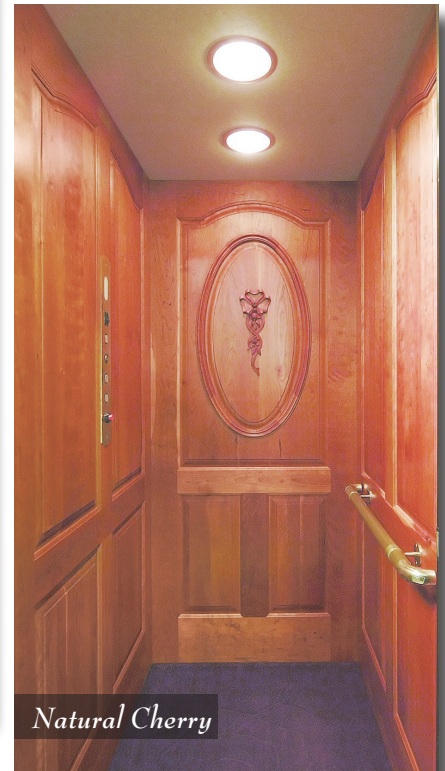

Raised Panel Solid-Wood Cabs

Solid hardwood cabs may be constructed from our list of select wood or an exotic wood of your choice (depending on availability). We offer ten standard design configurations or we can create a custom option to match your needs. Combinations of wood species can create beautiful contrasts and truly unique designs.

Design Your Own Options

Car Operating Panels

Car operating panels feature large buttons, emergency stop switch, alarm button and light switch for your convenience and safety. Brushed muntz and stainless steel shown.

Hall Stations

Hall stations can match car operating panels. Options include a standard single button with call/in-use indicator. A separate car-here indicator button is available. Key locks may be added to all controls for controlled access and safety.

Phone Boxes

Optional phone boxes are available to match car operating panels or wood interior finish.

Handrails

Solid-wood round or flat handrails are available to match your cab interior. Other finishes include brushed or polished chrome and brass.

Door Interlocks - EMI or GAL

Door interlocks prevent operation of elevator when the cab is not at the designated landing. (EMI shown)

Finish Options

Metal finish options for hall stations, cab operating panels and phone boxes. Images shown are representative only and are not intended for color matching.

Gate Options

Accordion gates are standard on all cabs. Our selection of vinyl-lam finishes include light oak, white, natural oak and chalk. Other accordion gates feature clear or bronze acrylic see-through panels. Special order accordion gates or basic scissor gates are also available.

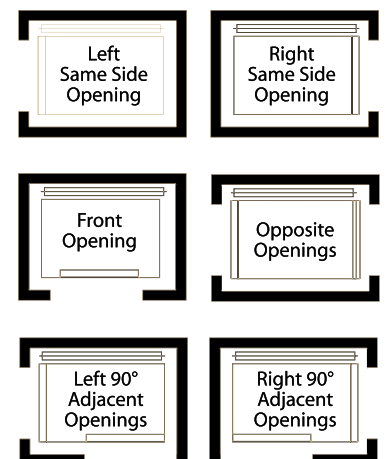

Power Gate Operator

The power gate operator offers the convenience of opening and closing the accordion gate automatically.

Cab Access Options

Paca Series Drive Systems

The **Paca Series**, is an affordable winding drum or hydraulic elevator system. Innovative J-Rail system reduces installation time and offers a smoother, more stable ride. Reliable digital control system requires minimal wiring and fast setup.

Technical

Capacity - 1,000 lbs.

Cab Size - maximum of 15 sq. ft.

Travel - up to 50 ft.

Stops - up to 5 stops

Nominal Speed - 40 feet per minute

Guide Rail - (2) 3/16" J-channel steel

Pit Depth - 8" minimum required

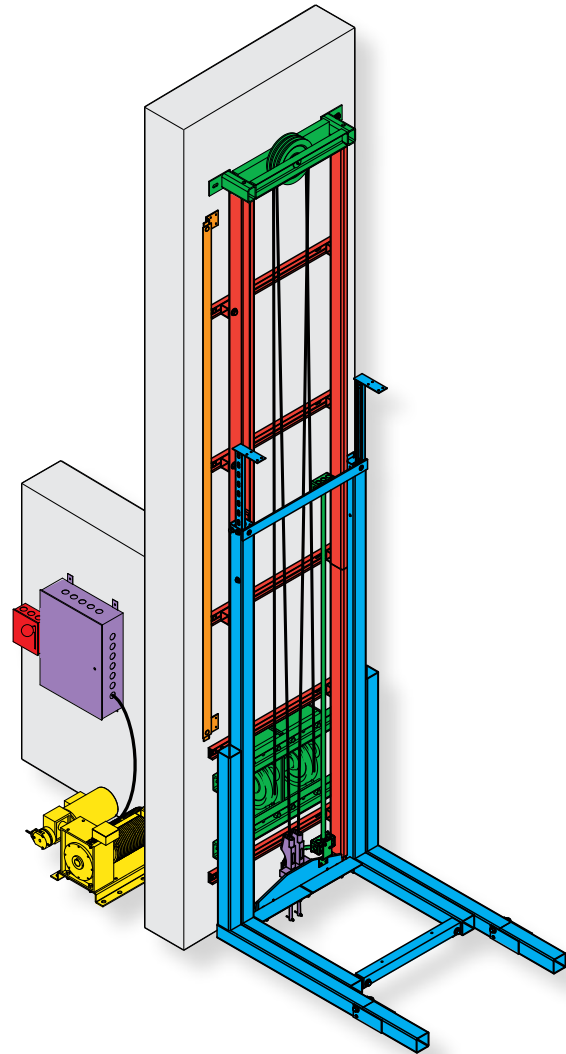

***Overhead** - See dealer

Controls - Fully automatic at car and landings, car light switch with auto light time out, emergency light and in-use indicator at landings. Field programmable homing feature, modular car wiring and digitally addressed hoistway wiring.

Signal Systems - Wall mount phone jack and emergency alarm.

Electric Supply - 230 volts, single phase, 60 hertz with 3-pole disconnect switch. A separate 120-volt circuit is required for cab lighting.

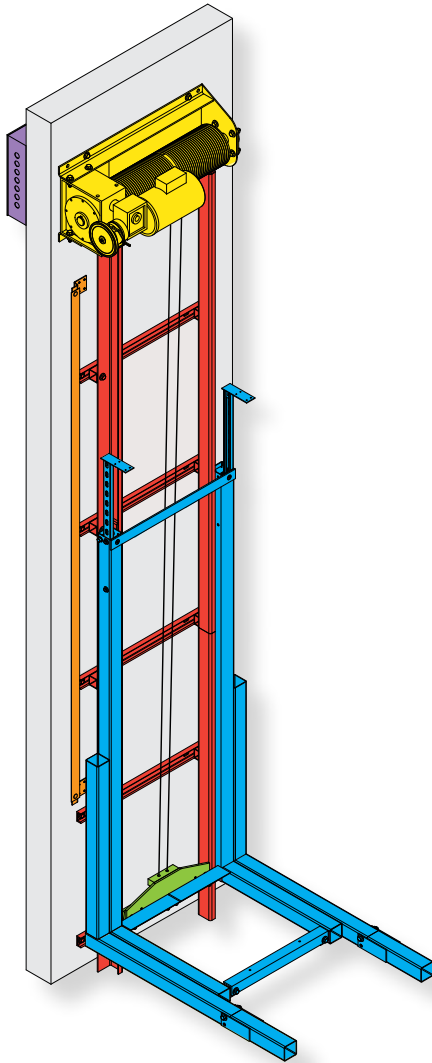

***Emergency Lowering** - Automatic descent with backup power supply. Manual hand wheel standard on Paca-Glide and Paca-Lift.

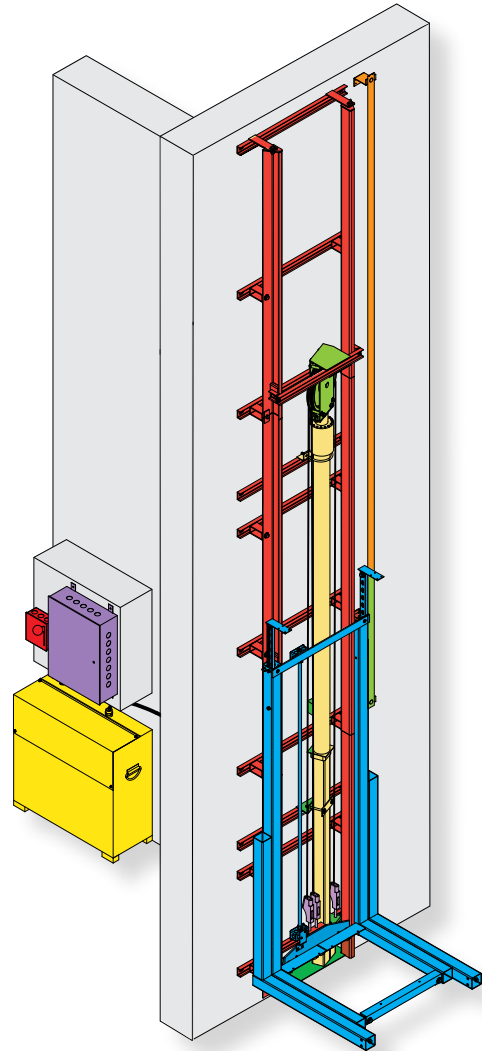

Paca-Lift, Winding Drum - Series 018
Capacity 1,000 lbs

***Drive** - Variable speed frequency control, for controlled acceleration and deceleration.

Slack Cable/Broken Rope - Twin instantaneous, broken and slack cable applied by retained compression spring.

Paca-Glide, Winding Drum - Machine Roomless
Series 015 - Capacity 1,000 lbs

Paca-Ryde, Roped Hydraulic
Series 016 - Capacity 1,000 lbs

Car - Frameless car with accordion gate standard. Standard collection and custom raised panel designs are available on all Paca Series elevators.

***Controller Location** - Remote location outside of hoistway, locked control box.

Additional Options - are available, for details contact your local dealer.

** Talk to your dealer for exact specifications*

Excelelevator Drive Systems

The Excelelevator™ roped hydraulic elevator is our most popular residential elevator and is a step up from the Custom-Lift. You will enjoy the ride with smooth acceleration and deceleration. Standard features include emergency descent with backup battery and automatic homing. Choose your elevator car from our beautiful standard collection or from our custom raised panel designs.

Technical
